

Book Club 2021 December Recommendation:

She's With Me by Jessica Cunsolo

Amelia Collins has moved a lot. She is in a new town and is determined to fit in while not standing out. It is important that she fly under the radar. However, starting on the first day at her new school, this is not going to happen. She finally feels like she could stay here and make a life, but others might not make that possible. Amelia is a fighter and a survivor. She is determined to make this work.

Indigenous Focus:

Hunting By Stars by Cherie Dimaline

This is the sequel to *The Marrow Thieves* one of my previous suggestions. *The Marrow Thieves* ended with Miig and Isaac being reunited and it seemed like things were going to be okay. However, this book starts with French waking up in one of the residential schools. He's been captured! The story alternates between what is happening with French in captivity and what his family is doing on the outside to find him. French finds his brother, alive, but the reunion is

not what he hoped. This story shows what French is willing to do and sacrifice to get back to his family.

Orca Books Recommendation:

Hannah's Touch by Laura Langston

This is a sister novel to *Last Ride* and is Hannah's story. After a near death experience, she now has the ability to heal. She feels like her dead boyfriend, Logan, wants her to do something with this new gift, but she is not sure what it is. Then, she understands...she needs to help Tom.

Last Ride by Laura Langston

An accident while racing, killed his best friend, Logan. Tom is haunted by Logan. He is seeing him everywhere. And to top it off, he is interested in Logan's girlfriend, Hannah. He owes Ray, a garage owner, money for repairs to his car and he's threatening him to either race again or give him his car. He promised Hannah he won't race. His life seems impossible right now and he's going to have to make some difficult choices.
