Moving Forward Together – Visit to CSS

At QJS, the end of the year is coming up quickly. Staff are working to help grade 9 students and families prepare for their move to Correlieu, and to help grade 7 students and families get ready for fall at QJS. We recognize times of transition have challenges for all. Please be sure to contact the school if you have questions or concerns.

As the end of the year approaches, PODs and Houses will be planning individually. Watch for information from classroom teachers.

June 7 NI Day and Learning for Teachers

QJS teachers spent time today working with Sandra Herbst, a Canadian Leader in Education, in a workshop titled: *Assessment in the Service of Learning: of Equity... of Hope...*

Her tireless efforts to increase student achievement earned a nomination for the Lieutenant Governor's Elementary School Classroom Teacher Award and the YMCA Women of Distinction Award. She has served as President of the Manitoba Association of School Superintendents and as President of the Manitoba Affiliate of ASCD. Sandra is a coaching trainer, promoting the 'invisible skills' and cognitive awareness that strengthen educators' effectiveness.

Staff worked with Sandra to develop equity through pedagogy, identifying various effective instructional and assessment strategies to better engage and support students as learners. Exciting work, especially as we embark into our school wide POD structure (smaller learning groups) and school wide inclusion next year.

Recognition of the 215 Children found at the Kamloops Indian Residential School.

This week many students and classes focused conversations and learning, intended to help grow understanding and empathy for all affected by this discovery. We will continue to work with the community to find ways we can support.

NEW: IN THE PARENT'S CORNER Information for Parents

Reminder: Appropriate Cell Phone Use at School

Please have a conversation with your child about the importance of safe and responsible use of the phone you let them use. Many classes have processes in place to help students learn to use their technology for educational purposes and teachers work with students to use phones as learning tools, however, phones are not required for academic learning at QJS.

Responsible use of cell phones continues to present challenges for some students. Young people are learning how to navigate the complex communication on social media and the on-line world. A reminder to parents/guardians, the person who owns the cell phone contract is responsible for the content on the phone.

SD 28 Electronic Devices Policy and PROCEDURES (excerpt) - The Board of Education believes that cell phones and other digital devices can play an important role in education and communication with permission from the supervising teacher. Students may carry electronic devices and may use them as follows:

- 1. Elementary Schools will set electronic device use rules for non-instructional times that support their individual school.**
- 2. At Junior and Secondary Schools, electronic devices may be used during non-instructional times provided this does not interfere with the operation of the school.**
- 3. Cell phones and other digital devices will not be used in change rooms or**

washrooms. Electronic devices will not be used to take pictures in change rooms or washrooms.

4. During instructional time, the use of electronic devices is for the purpose of student learning.

5. Cell phones must not be used during a school lockdown.

Violation of this policy may result in disciplinary action. Cell phone and electronic device use is covered by the School and the District Code of Conduct.
